## СОВРЕМЕННАЯ ЛИТЕРАТУРА В КОЛЕ ХХI ВЕКА MODERN LITERATURE AT XXI CENTURY SCHOOL

**Аннотация.** Рассматриваются принципы включения произведений современной литературы в школьную программу. Отвергается идея о разделении массовой культуры и литературы, изучаемой в школе. Сформулированы принципы отбора литературных произведений: литературная значимость произведения, его популярность и литературно-критическая оценка; репрезентативность произведения для творчества изучаемого писателя; методическая и культурная традиция; доступность литературного произведения школьникам; «интересность» произведения; стилистическая характерность языка.

**Annotation.** Principles of introduction of works of the modern literature in the school program are considered. The idea about division of mass culture and the literature studied at school is rejected. Principles of selection of literary works are formulated: the literary importance of work, its popularity and a literary-critical estimation; a representativeness of work for creativity of the studied writer; methodical and cultural tradition; availability of a literary work for pupils; «attractiveness» of piece of work; language stylistic distinctness.

**Ключевые слова.** Современная литература, массовая культура, принципы отбора литературы, программа по литературе.

**Keywords.** Modern literature, mass-culture, criteria's for literature selection, literature curricula.

Чтобы оказаться в школьной программе, текст должен стать классическим. В логоцентрической системе текст становится классическим, когда изучается в школе. Но это еще не замкнутый круг. Еще одно предложение: в той же системе классические тексты непременно становятся массовыми. Круг замкнулся.

Так складывается костяк обязательных для ознакомления текстов. В них главное – сюжет, особенно легко воспроизводимые его части. В этом смысле литература успешно делит свое влияние с кино. Визуальный ряд помогает закрепить в памяти наиболее доступные для запоминания и воспроизведения сцены. Конечно, декларируется равноправие «содержания и формы», на самом деле содержание и его «правильная» интерпретация – главное.

Один из первых случаев совпадения – «Как закалялась сталь». Это был идеальный случай: классическое произведение сразу же задумывалось как обязательное для всенародного, в том числе и школьного, изучения. После разрушения в конце 20-х годов книжного рынка массовая литература не зависела от количества проданных экземпляров.

В программах советской эпохи через короткое время после выхода в свет оказались «Молодая гвардия» А. Фадеева, стихи Е. Евтушенко. В 70-е годы новые произведения перестали включаться в школьную программу непосредственно. Для них было необходимо «выдержать срок» в списке для внеклассного чтения или для факультативного изучения.

Это совпало с общественным интересом к учителям-новаторам. Их объединяло стремление к облегченному образованию, «свободному», «счастливому», наконец, «Образованию с улыбкой».
